

## Top Mount - Easy Alu Balustrade Installation Advice

### Calculation baluster post

Railing height ( $H$ ) +  $140\text{mm}$  = baluster post height ( $H_p$ )

Railing height ( $H$ )	Baluster post height ( $H_p$ )
900mm	865mm
1000mm	965mm
1100mm	1065mm
1200mm	1165mm

### Glass calculation

Railing height ( $H$ )

Glass width ( $W$ ) =  $Y - 72\text{mm}$

Glass height ( $H_g$ ) = railing height ( $H$ ) -  $h_1$  -  $h_2$

### Distance drill holes in baluster post ( $X$ )

$X$  = glass height ( $H_g$ ) -  $22\text{mm}$
