

Solid Decorative End Ball with Inside Thread

MOD 0220

This solid stainless steel end ball is the ideal finishing touch for your balustrade. Available in a range of diameters of 20mm to 50mm with an inside thread of either M6 or M8. Manufactured for interior (304 grade) and exterior (316 grade) applications and finished to a high quality brushed 320 grit satin.

For installation simply screw into place. To achieve a tamper free fitting we recommend using a dab of stainless steel adhesive to act as a threadlock.

Modular DIY Range

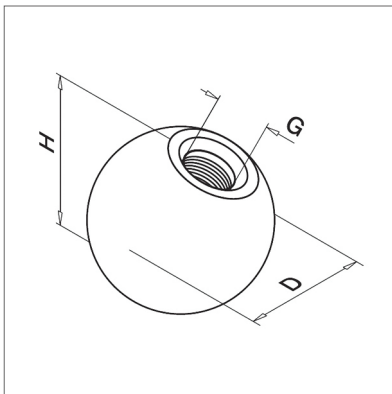

Our most comprehensive and popular range of balustrade components. Produced from high quality stainless steel ensuring your installation is of the highest quality and will stand the test of time.

Product Information

Available Options

Grade: 304 (interior) stainless steel.
Grade: 316 (exterior) stainless steel.

Ball Diameter: 20mm to 50mm.

Key Features

- 304** Manufactured from 304 grade stainless steel.
- 316** Manufactured from 316 grade stainless steel.
- To a superb brushed 320 grit satin finish.

Care Instructions

We recommend you should treat your stainless steel balustrade on a regular basis to ensure long-lasting perfection. Using either WD-40 or a specialist chemical stainless steel cleaner to remove heavy dirt and rust stains. **Q-Ultra-Clean** rebuilds and strengthens the passive layer of stainless steel.

Design

You can send us your drawings, technical drawings or even a freehand sketch.

From this we'll produce an accurate quotation for you. This service is completely free with no hassle or obligation.
