For full dimensions please visit: https://www.s3i.co.uk/modular-709-handrail-saddle-135-tube.php

Key Features

Manufactured from 316 grade stainless steel.

stainless steel. To fit 42.4mm diameter

To fit 48.3mm diameter stainless steel tube.

Brushed 320 grit satin finish.

High strength adhesive required for installation.

We recommend two M5 x 16 hex head button cap screws for handrail

Care Instructions

We recommend you should treat your stainless steel balustrade on a regular basis to ensure long-lasting perfection. Using either WD-40 or a specialist chemical stainless steel cleaner to remove heavy dirt and rust stains. **Q-UItra-Clean** rebuilds and strengthens the passive layer of stainless steel.

> To attach into tubular posts we recommend using a high strength stainless steel adhesive.

To attach handrail we recommend using two M5 x 16 hex head button cap screws.

Mod 0710 / 0711

Stainless steel handrail saddle with a curved fixing mount, perfect for joining balustrade railing at a 135 degree angle.

Designed for fixing into and to support either 42.4mm or 48.3mm diameter stainless steel tube. Ideal choice for tubular hardwood handrail.

Manufactured from 316 (external) grade stainless steel, with a brushed 320 grit satin finish.

Quick and easy to install using a high strength stainless steel adhesive. Simply apply glue and insert into post, align your saddle to the correct position. Once the glue has had time to set you can then attach your chosen handrail.

For attaching a stainless steel handrail we recommend using M5 x 16 hex head button cap screws.

Modular DIY Range

Our most comprehensive and popular range of balustrade components. Produced from high quality stainless steel. All fittings in this range are based upon a wall thickness of 2mm ensuring that your installation is of the highest quality and will stand the test of time.
