

# In-Line Tube Connector - Flush Fitting

## Mod 0790

In-line tube connector for handrail and tube. Ideal for joining long sections of balustrade tube, designed to fit flush into your tube leaving you a neat and strong connection.

Available to fit either 42.4mm and 48.3mm diameter tube.

Suitable for internal (304 grade stainless steel) and external (316 grade stainless steel) applications, finished to a brushed 320 grit satin.

Installation is quick and easy, simply glue the ends with a high strength stainless steel adhesive and insert into your tube.

### Modular DIY Range

Our most comprehensive and popular range of balustrade components. Produced from high quality stainless steel. All fittings in this range are based upon a wall thickness of 2mm ensuring that your installation is of the highest quality and will stand the test of time.

### Product Information

Available Options

Grade: 304 (interior) stainless steel.

Grade: 316 (exterior) stainless steel.

To Fit: 42.4mm diameter tube.

To Fit: 48.3mm diameter tube.

To a brushed 320 grit satin finish.

## Key Features

**304**

Manufactured from 304 grade stainless steel.

**316**

Manufactured from 316 grade stainless steel.

**Ø 42.4**

To fit 42.4mm diameter stainless steel tube.

**Ø 48.3**

To fit 48.3mm diameter stainless steel tube.

Brushed 320 grit satin finish.

Requires fixing with a high strength stainless steel adhesive.

## Care Instructions

We recommend you should treat your stainless steel balustrade on a regular basis to ensure long-lasting perfection. Using either WD-40 or a specialist chemical stainless steel cleaner to remove heavy dirt and rust stains. **Q-Ultra-Clean** rebuilds and strengthens the passive layer of stainless steel.

For fixing into tube we recommend using a **high strength stainless steel adhesive**.

## Design

You can send us your drawings, technical drawings or even a freehand sketch.

From this we'll produce an accurate quotation for you. This service is completely free with no hassle or obligation.
