

Modular Balustrade Handrail Pillar In-Line - Tube

13.0810.042.12

M10 threaded handrail pillar with a curved support to accept either stainless steel or hardwood 42.4mm or 48.3mm diameter tube.

This pillar is ideal for mounting into threaded post caps on balustrade posts.

Produced from 304 (interior) grade and 316 (exterior) grade stainless steel available with a superb brushed 320 grit satin finish.

Installation is quick and easy when used with a [threaded post cap](#).

For attaching a stainless steel handrail we recommend using [M5 x 16 hex head button cap screws](#).

Modular DIY Range

Our most comprehensive and popular range of balustrade components. Produced from high quality 304 or 316 grade stainless steel. All the fittings in this range are based upon a wall thickness of 2.6mm ensuring that your installation is of the highest quality and will stand the test of time.

Modular Balustrade Handrail Pillar In-Line - Tube

13.0810.042.12

Suitable to fit with [threaded post caps](#) from our modular components range

For attaching stainless steel handrail we recommend using two [M5 x 16 hex head button cap screws](#).

Use of a [hex head key](#) may be required for installation if attaching stainless steel handrail.

Care Instructions

We recommend you should treat your stainless steel balustrade on a regular basis to ensure long-lasting perfection. Using either WD-40 or a specialist chemical stainless steel cleaner to remove heavy dirt and rust stains.

[Q-Ultra-Clean](#) rebuilds and strengthens the passive layer of stainless steel.

Design

You can send us your drawings, technical drawings or even a freehand sketch.

From this we'll produce an accurate quotation for you. This service is completely free with no hassle or obligation.
