

Modular Balustrade Adjustable Handrail Pillar In-Line - Tube

13.0818.042.12

M10 threaded adjustable handrail pillar with a curved support to accept either 42.4mm or 48.3mm diameter tube.

With a large adjustment radius this pillar is ideal for mounting into threaded post caps on inclines such as stairs. Produced from 304 (interior) grade and 316 (exterior) grade stainless steel available with a brushed 320 grit satin finish.

Installation is quick and easy when used with a threaded post cap. To attach a stainless steel handrail we recommend using **M5 x 16 hex head button cap screws**.

Modular DIY Range

Our most comprehensive and popular range of balustrade components. Produced from high quality stainless steel ensuring your installation is of the highest quality and will stand the test of time.

Key Features

- 304** Manufactured from 304 grade stainless steel.
- 316** Manufactured from 316 grade stainless steel.
- Ø 42.4** To fit into 42.4mm diameter stainless steel tube.
- Ø 48.3** To fit into 48.3mm diameter stainless steel tube.
- To a brushed 320 grit satin finish.
- 270°** Total adjustment of 270°.

Attach stainless steel handrail using two **M5 x 16 hex head button cap screws**.

Care Instructions

We recommend you should treat your stainless steel balustrade on a regular basis to ensure long-lasting perfection. Using either WD-40 or a specialist chemical stainless steel cleaner to remove heavy dirt and rust stains. **Q-Ultra-Clean** rebuilds and strengthens the passive layer of stainless steel.

Fits **threaded post caps** (available separately)

Design

You can send us your drawings, technical drawings or even a freehand sketch.

From this we'll produce an accurate quotation for you. This service is completely free with no hassle or obligation.
