M6 x 25 Countersunk Hex Head Screw.

This product requires a **hex head key** for installation.

Care Instructions

We recommend you should treat your stainless steel balustrade on a regular basis to ensure long-lasting perfection.

We recommend using either WD-40 or a similar product to wipe down your stainless steel or using a specialist chemical stainless steel cleaner to remove heavy dirt and rust stains.

Q-Ultra-Clean rebuilds and strengthens the passive layer of stainless steel.

Design

You can send us your drawings, technical drawings or even a freehand sketch.

From this we'll produce an accurate quotation for you. This service is completely free with no hassle or obligation.
