

Modular Balustrade Adjustable Handrail Pillar Component

13.0812.068.12

Adjustable handrail pillar designed to work with other products from our [component range](#). Simply screw the M10 thread into one of our post caps for a quick and easy installation, supplied with a pre-drilled M6 threaded centre hole to fit handrail saddle plate components from this range. We recommend using a [M6 x 12 countersunk screw](#) to attach your chosen saddle plate - available separately.

With an adjustment of 180° and available from a choice of 304 grade (interior) or 316 grade (exterior) stainless steel to a brushed satin finish, this handrail pillar is the perfect choice for inclines such as staircases.

Modular DIY Range

Our most comprehensive and popular range of balustrade components. All the fittings in this range are based upon a wall thickness of 2.6mm ensuring that your installation is of the highest quality and will stand the test of time.
