

Ultra Corrosion Resistant Stainless Steel Tube

18.0900.242.12

This finest quality stainless steel tube forms the posts and handrail of your balustrade. We can cut and finish this product to any desired length up to 5 metres. It has a strong wall thickness of 2mm and the 42.4mm diameter matches the rest of the ultra range perfectly.

Please note that lengths over 3 metres will attract a long length delivery surcharge.

Ultra Range

The Ultra range of products are perfect for installation in harsh environments such as swimming pools and coastal areas. This corrosion resistant stainless steel range is produced with an extra resistance to tea-staining and pitting, that isn't available anywhere else on the market.

Manufactured from 2205 corrosion resistant stainless steel.

Ø 42.4

Tube diameter 42.4mm

To a superb brushed satin finish.

Care Instructions

We recommend you should treat your stainless steel tube on a regular basis to ensure long-lasting perfection.

We recommend using either WD-40 or a similar product to wipe down your tube, or using a specialist chemical stainless steel cleaner to remove heavy dirt and rust stains.

Q-Ultra-Clean rebuilds and strengthens the passive layer of the stainless steel.

Design

You can send us your drawings, technical drawings or even a freehand sketch.

From this we'll produce an accurate quotation for you. This service is completely free with no hassle or obligation.
